The Innovative Wearable ECG Patch

XYZlife Patch BC1 is an innovative wearable ECG which enables long-term and real-time monitoring, historical data_viewing, and dedicated reports for medical professionals and users. An unique_calling function can immediately contact a doctor, a family member, or a close friend when irregular signs are detected.
The device can be used by healthcare professionals and users ranging from pre-screening potential cardiovascular symptoms to efficiently treating outpatient medical care.

XYZlife Patch APP

XYZlife Patch App is available on Apple App Store and Google Play Store. The app provides real-time ECG monitoring, ECG/HRV history data review, and daily activity (steps/calories/distance) tracking.

XYZlife Patch APP with Diagnosis

Through in-app purchase, the app can be upgraded with the capability to diagnose AF, VF, APC, and VPC. The diagnosis icon can be seen on the History ECG page and listed by date.

Available on the **App Store**

Google play

XYZlife BC1

PDF Report

ECG data can be exported in PDF format and directly sent to the healthcare professional.

Fall Detection

The app can contact a list of preset persons via phone calls or SMS messages after 30 seconds of a fall being detected.

Call Button

Press the Call Button on the device to directly call the preset contact person via the connected smartphone.
